Money Rates Stiffer, with Prospect of Mounting Upward-Local Markets

Quiet and Weaker.

At New York yesterday money on call was moderately active at 2@21/2 per cent.; last loan, 2; closed, 2 per cent.

Prime mercantile paper, 366 per cent. Sterling exchange was slightly easier with actual business in bankers' bills at \$4.894@ 4.89% for demand, and \$4.88% for sixty days; posted rates, \$4.871/04.871/2.

Silver certificates, 59%c bid; no sales. Bar silver, 59%c; Mexican dollars, 48%c. At Lon-

don bar silver, 27%d per ounce. Total stock sales were 212,676 shares, including the following: Atchisen, 3,400; American Sugar, 23,100; Burlington, 13,500; Chicago Gas, 10,000; Distilling, 13,100; General Electries, 18,500; Louisville & Nashville, 10,000; Missouri Pacific, 3,700; National Lead, 3,100; New Jersey Central, 4,500; Northwest, 5,600; Reading, 4,400; Rock Island, 9,000; St. Paul, 21,500; Wabash preferred, 3,600; Western

Union, 12,300. There was a very general belief in Wall street, vesterday, that the government is preparing for the issue of a new 5 per cent. loan and that a treasury circular giving the terms of the loan, is liable to be issued at any moment, Washington dispatches denied that such a determination had been reached by the President, but apparently without any effect on current opinion which held to it that another bond issue is impending. The chief influence of this belief was on the money market rather than on the Stock Exchange and was reflected in a hardening Exchange and was reflected in a hardening of loans and withdrawals of much of the offerings which have glutted the market for months past. The factors of the share speculation were the prospective gold exports, the withdrawals of gold from the subtreasury, the heavy London market for American securities, selling here for the foreign account and the raising of the issue of silver versus gold which the President's message has led to, both in Congress and in circles has led to, both in Congress and in circles of finance not alone in this country, but beyond the sea. At the opening of business on the Stock Exchange a free selling movement was inaugurated which caused a sharp decline, the depression continuing up to midday, at which time losses had been made midday, at which time losses had been made ranging from % to 4% per cent., the latter in Canadian Pacific. A dispatch from London stating that the establishment of an opposition line to parallel large sections of the Canadian Pacific and to have government aid was being negotiated, caused the break. Other heavy declines were Louisville & Nashville, 2%; Cotton Oil, 1%; Cotton Oil preferred, 3%; Lake Shore and Rubber, 1%; Rock Island, 1%; Distilling, 1%, the latter breaking on a report that receivers were to be appointed for the company. After midday the pressure to sell was in great measure removed and partial recovery took place, Lead selling up 2%. There were some heavy declines, notably Louisville & New Albany preferred, 2%; St. Paul preferred, 1%; Long Island, 3. During the last hour the market was generally strong in tone and market was generally strong in tone and prices continue to move up to the close. An exception was Pullman, which broke 2% per cent. just before 3 o'clock. Most of the shares dealt in show declines on the day including Canadian Pacific, 4%; Cotton Oil preferred, 3½; Cotton Oil common, 1%; Long

Island, 3; Pullman, 2%; Norfolk & Western preferred, 2; Louisville & New Albany, 1%; Rubber and Nickel-plate seconds preferred, 14; Distilling and St. Paul preferred, 1 per cent. Speculation closed strong.

The bond market was weak and active during the day. There were some material changes recorded. Kansas Pacific consols gave way 6 to 70, but recovered to 71½. The aggregate sales were \$1,389,500.

Government bonds were steady. State bonds were applied to the state of the state o bonds were dull.

LAST OF A TOUGH GANG.

Two Men Arrested Yesterday with Many Charges Against Them.

The detectives made another excellent capture yesterday in the arrest of Guy Van Tassel and Noah Baney. These two are said to be the remainder of an organized gang of highway robbers and general thieves, a part of whom were convicted some time ago. The police have been looking for Van Tassel and Baney for several months as quite a number of crimes have been attributed to them, among which was the holding up of a grocer on Johnson avenue a few weeks ago. The detectives have made a number of attempts to catch them, but they have always managed to escape. The detectives say they have spent very little of their time in this city, coming in just long enough to commit a burglary then leaving and staying out of sight for some time. Their visits were always unexpected by the officers and it was almost an accident that they were captured yesterday by detectives Thornton, McGuff and Dougherty. Detective Thornton had seen them Monday on Virginia avenue, but they recognized him

and made good their escape. Yesterday the three detectives started on search of the south end of the city and as they were passing a saloon at No. 100 South East street they decided to make an examination of the place, not, however, suspecting that the two men for whom they were searching were there. As detective Dougherty stepped inside, he saw two men at a table playing cards, but before he could recognize them, Baney reached for his re-volver. Dougherty did not then have time to draw his own weapon, but quick as a flash he knocked the man down with his fist. he was compalled to do the same thing three times before Baney submitted to arrest. At the police station the men were very glum and were rejuctant about telling the de-

tectives anything.

A ten-gallon keg of whisky, which was standing in front of A. Kiefer & Co.'s drug house, waiting for shipment Monday morning, mysteriously disappeared and was traced by the tracks in the snow of a sleigh hauled by two men, to the corner where detective Thornton saw these men Monday and Van Tassel and Baney confessed that they took it and it was recovered by the detectives last night. A few days ago a woman with whom Baney had been living, was arrested on the charge of assisting criminals to escape as it was thought that she knew the whereabouts of Baney. She was convicted of shop lifting and sent to the workhouse. It was learned last week that Baney was hanging around the workhouse waiting for the woman to be released. Detective Richards was sent there Saturday and waited all day for him to appear, but Baney was suspicious and would not come inside the grounds, so Richards telephoned in for officers to be sent to take him on the outside, but Baney seemed to think that something was wrong and departed.

A Dangerous Slung Shot.

Frank Smith, a young man who was laboring under rather too heavy a load of intoxicants, went to a house at No. 18 Eckert street, yesterday afternoon, and, going to the back door, demanded admittance, saying that he had come to see the lady who lives there. He was ordered to leave the premises by the husband of the woman, but he refused to go, saying that he was hunt-ing for trouble. The man threw him out and called officer Haley, who arrested him. At the police station, when searched, a heavy piece of iron was found tied in one corner of his handkerchief, making a very

dangerous weapon. Smith was slated as drunk and trespassing. Pensions for Veterans. The applications of the following named

CASH WHEAT AT CHICAGO WENT DOWN TO 49C YESTERDAY.

Both Grain and Provision Markets Threatened with a Panie and Heavy Declines Were Made.

CHICAGO, Jan. 29 .- The Board of Trade was wildly excited to-day and made a sensational decline, affected by heavy selling under the influence of the gold exports scare and the strained financial conditions, Cash wheat went below all former records, and was worth only 49c a bushel. There seemed to be wheat to burn, both cash and optional. There might have been a few fallures had not the market recovered at an opportune moment. Yesterday May wheat closed at 531/2c. To-day it opened at 53c, sellers, and then dropped to 52%c. The market was very shaky and a panicky feeling prevailed all around. There was every indication that a big crash was in prospect, but this was prevented by a lucky chance which shored the market and doubtless saved several firms on the board. When 52c for May had been reached Charley Smith, seeing a chance on the million and a half of puts which he bought yesterday, began to buy against them heavily. Others who were in the same boat did likewise, and this heavy buying had the effect of staying the market and restoring It to a feeling of strength. Under this influence the market rallied and the danger seemed temporarily averted. Apart from the demoralizing effect of the

national financial situation upon the foreign and domestic grain markets, the other matters pertaining to supply and demand were encouraging to holders, and that, more than anything else, encouraged the buying, which prevented the market from drifting into a state of helpless panic. The sum total of the primary market receipts was only 179,000 bushels, against 196,000 on Tuesday of last week, and compared with 233,000 bushels on the corresponding day of the year before. The export clearances from the principal Atlantic ports amounted to 200,000 bushels of wheat and about 150,000 bushels in the shape of flour. The purbushels in the shape of flour. The pur-chase for export from New York of about thirty boatloads and from outports of from ten to fifteen more, and the taking of about 150,000 bushels of spring and winter wheat here, caused some covering of shorts in the last half hour of the session, and May reacted to 53c, and closed with buyers

everything on the speculative list this for noon was nowhere more conspicuous than in the corn pit. The receipts were only 247 cars, against 290 estimated, but the break in wheat at the opening caused holders of corn to rush their stuff on the market regardless of everything but keeping it and standing up to fresh margin calls. The country holdings, which up to within the last few days had withstood all attempts at dislodgement, have been gradually undermined and toppling over. gradually undermined and toppling over. To-day there was a general cave-in, as may be seen in the fact that before noon May corn, which closed yesterday worth 44½c, was offered for sale at 42½c before noon to-day. A recovery of 1c per bushel in the price of wheat near the end and the reported sale at the seaboard of twenty hostloads of corn for export caused some boatloads of corn for export caused son most of the late buying was, however, credited to shorts.

The market for oats was active at most from beginning to end. The heaviness existing was the principal feature and was very great. Corn was weaker and quite influential in creating lower prices in oats. very great. Corn was weaker and quite influential in creating lower prices in oats. Cash oats were very slow of sale and suffered a decline of about ic per bushel, which was extended into the speculative crowd. The selling of May was quite general, and two or three firms were credited with again raiding the market. Bartlett-Frazier, Patton Brothers and Undeke lett-Frazier, Patton Brothers and Updyke were offering very liberally. The buying was limited and confined to scalpers and a few stray shorts. May started at from 29c to 29½c, and gradually dropped off to 27½c, which is another low price of the crop and %c below the established bottom this same day last week. Later on the market railied to 25%c, at which price it

The provisions market fell into line with the declining grain markets and suffered a severe break, which it only partially recovered from in the end. May pork, which closed yesterday at \$10.57½, opened with sellers at \$10.50, and in the course of the forenoon had declined to \$9.75. It recovered to \$10.15, and the latest trading was at \$10.02½. Lard and ribs pursued a similar course, winding up with a loss for the day of .17½c in the former and .27½c in the latter. The extreme weakness of the corn market was the principal incentive to the selling of provisions, which in turn depressed prices to a point where stop orders came into play and did the rest. Hog receipts were 21,000, and 26,000 are estimated for to-morrow. declining grain markets and suffered imated for to-morrow. Estimated receipts for to-morrow: Wheat

HOW A BANK WAS LOOTED.

Lawyer's Disclosures Regarding Defunct New York Institution.

NEW YORK, Jan. 28.-Peter A. Gatens made some sensational statements in Part I, General Sessions, to-day, relative to the affairs of the Harlem River Bank, which failed in March, 1894, leaving many uptown storekeepers to mourn for unavailable deposits. He charged one of the directors with making off with a painting supposed to be worth \$10,000, upon which the bank had loaned money. The director had been paid to go to Paris and negotiate the sale of the painting, and the work of art had never been seen since. One person had been accustomed to call at the Harlem River Bank before it closed its doors every Monday for the purpose of collecting blackmail for not telling some story he knew about the affairs of the bank. He also said that \$40,000 had been loaned by the bank on paintings, of which the al-leged ten-thousand-dollar picture was one, when, as a matter of fact, the whole were when, as a matter of fact, the whole were not worth much more than cost incurred for storage. The lawyer declared that, in addition, \$55,000 had been loaned on worthless collateral. The recorder denied the motion to see the minutes of the grand jury which had failed to indict on this showing, but said that if it could be shown that there was new testimony which might be submitted to the grand jury he would consider resubmitting it. THE INDIANAPOLIS

Daily, Sunday and Weekly

The Journal is first of all a newspaper. Its primary object is to publish the news, and to procure this it spares no pains or expense. Besides the service of the Associated Press, which covers foreign countries as well as the entire United States, it has a corps of special correspondents, who give attention to those events and o6currences that are likely to be of particular interest to the Indiana public.

Its Washington Bureau

Was established for the purpose of looking after matters in which the State and its people are concerned, and is under the management of a gentleman well acquaint ed with the local business and political issues.

It has a correspondent in every cown of importance in the State, and is constantly increasing its facilities for obtaining information from every quarter.

Its staff of city reporters is large, and its local departments are unexcelled. As a newspaper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all of its departments. With all, it endeavors to be accurate and trustworthy, printing the news, whatever it may be, without personal or partisan bias.

THE SUNDAY

Is a paper that gives more attention to miscellaneous literature than the other editions, and contains in its sixteen, and often twenty, pages a variety of choice reading matter that satisfies the most exacting taste.

The Indiana State Journal

(Weekly Edition) is a large 56-column paper, carefully edited, with a special view to the wants of Indiana readers, both in its general and political news. Its subscription price, \$1.00, with reduction to clubs, places it within the reach of all, and no campaign contribution can be so effective as when spent in furnishing this paper to readers who need Republican doc-
